

## **Technical Data Sheet**

Issued: July 2014

## **Dalchem - Flexiclear 60**

**Product Characteristics:** Flexiclear 60 is a low viscosity, two component water clear polyurethane elastomer.

Benefits: Flexiclear 60 offers optical clarity, high tear strength, is easily pigmented to bold colours

**Applications:** Flexiclear 60 is recommended for applications where a desired thermoplastic feel is required. It is commonly used to make models of all kinds, artwork, and can also be used for electronic component encapsulation.

Colour:	Clear
Specific Gravity:	1.03 gm/cc
Hardness:	60 Shore A
Pot Life:	15 min
Demould Time:	6 hrs @ 60°c
Application:	Optimum @ 25°c
Mix Ratio:	100:85 by weight
Shelf life:	6 month from Date of Manufacture
Tensile Strength	5 mpa
Elongation	330%
Tear Strength	17 kN/m

**Dalchem Pty Ltd** ABN 74 104 532 185 141 Herald Street Cheltenham Vic 3192 P.O. Box 129 Moorabbin Vic 3189

**Mould Preparation:** Carefully clean the mould, and then apply a suitable release agent onto the surface. Ensure that the surface is dry before coupling the mould parts. Heat the mould in an oven to 25°c; this may take several hours if the mould is very large. Splitting the tool will speed up the warming process.

**Prepare the mix:** Ensure that Part A and Part B are not below 20°c before using. Ensure both components are stirred mechanically prior to mixing.

Weigh out Part A as required and degas at 1-5mm of vacuum until excessive foaming stops.

Add Part B to Part A and mix thoroughly. Avoid mixing in air. Mixed product can then be degassed at 1-5mmHg vacuum if required.

Pour the mixed liquid into the moulds.

Allow the material to fully cure before demoulding.

**Post Curing:** Flexiclear 60 will offer a better surface finish and clarity of part when post cured at 60°c for 6-8 hours

Handling Precautions: Avoid breathing in vapors, avoid skin and eye contact. Always use in a well-ventilated area.

For more details please refer to the SAFETY DATA SHEET

Dalchem offers no warranty of merchantability nor fitness for use, nor any other express or implied warranty. The users exclusive remedy and the suppliers sole liability is limited to refund of the purchase price or replacement of any product shown to be otherwise than as warranted. The supplier will not be liable for incidental or consequential damages of any kind. Users should carry out independent testing to determine that products meet their application requirements. Suggestions for use should not be taken as inducements to infringe any patents.
